## ANATOMIC PATHOLOGY TECHNICIAN TRAINEE

University of Washington Medical Center

[278 reviews](#) - Seattle, WA

\$3,205 - \$4,453 a month

The team at UW Medicine Pathology is committed to providing timely and accurate diagnosis of biopsies and other material by highly qualified faculty, skilled technicians and dedicated staff members. Our expert consultation services feature proven diagnostic protocols, innovative technology and exemplary customer service.

UW Medicine Pathology provides clinical services in all areas of pathology, providing diagnostic procedures and analysis for more than 80,000 cases a year. We provide comprehensive diagnostic and personalized consultative services to physicians, community hospitals, independent laboratories and other health-care organizations, by combining sophisticated testing and informatics capabilities of fully accredited laboratories with the resources of an academic and teaching institution in its delivery of pathology services.

Our operations are based at the UW School of Medicine, UW Medical Center, Harborview Medical Center and the Seattle Cancer Care Alliance. Pathology faculty members also serve at Seattle Children's, VA Puget Sound Health System and the Fred Hutchinson Cancer Research Center. These collaborative efforts have generated innovative studies in the basic mechanisms of disease applied to diagnostic pathology - the foundation of our cutting edge research discoveries, and of our training programs for graduate students, residents and fellows. UW Medicine Pathology is one of the top ranked research departments in the country.

Join our award-winning team at University of Washington Medical Center (UWMC). Among the top medical centers in the United States as rated by U.S. News & World Report "America's Best Hospitals", UWMC prides itself on compassionate patient care as well as its pioneering medical advances. UWMC is operated by the University of Washington (UW) and serves as a training site for UW's School of Medicine. The University of Washington is proud to be one of the nation's premier educational and research institutions. Our people are the most important asset in our pursuit of achieving excellence in education, research, and community service. Our staff not only enjoys outstanding benefits and professional growth opportunities, but also an environment noted for diversity, community involvement, intellectual excitement, artistic pursuits, and natural beauty.
