

Name: _____

Where do you encounter chemistry in your everyday life?

As you take your pictures, please fill out the following chart. We have given you three examples.

| What is this picture? (Or insert the picture here) | How does this picture show an aspect of chemistry? | What about this aspect of chemistry is <u>personally interesting</u> to you? |
|--|--|--|
| 1. <i>This is a picture of cold medicine</i> | <i>Medicines are mixtures of chemicals for purposes of making people feel better</i> | <i>I want to be a pharmacist when I grow up, and I want to understand the chemistry of medicine.</i> |
| 2. <i>This is a picture of my car</i> | <i>My car uses gasoline to run through a chemical reaction</i> | <i>I want to know the differences in kinds of gasoline, and how to tell which is the best kind to use.</i> |
| 3. <i>This is a picture of a cheeseburger</i> | <i>My body does lots of reactions to process food</i> | <i>I want to gain muscle, so I need to know what kinds of foods to eat.</i> |
| 4. | | |
| 5. | | |
| 6. | | |
